Summary	<p>Creative and detail-oriented Frontend Developer with experience building responsive, user-centric web applications using React, TypeScript, Tailwind CSS, and Redux. Passionate about clean code, performance, and seamless user experiences. Adept at translating UI/UX designs into functional and elegant front-end interfaces.</p>	
Experience	<div><div><div>Philmoore Stores</div><div>Software Developer</div><div><div><div></div><div>https://philmoorestores.com/</div></div><div><div><div></div><div>Maintained and improved internal web tools using JavaScript and React.</div><div><div></div><div>Assisted in migrating manual stock records into a digital format.</div></div><div><div></div><div>Provided technical support and automation for inventory updates.</div></div></div></div></div></div></div>	<div><div>February 2025</div><div>Lagos Island, Balogun Market, Lagos State, Nigeria</div></div>
Projects	<div><div><div><div>B-Store</div><div>An e-commerce book store web app</div><div><div><div></div><div>https://faosy-adebimpe.github.io/bstore/</div></div><div><p>Built a live, interactive bookstore app using React, TailwindCSS, Zustand, and React Router. The app features a responsive UI with placeholders for books, user accounts, and product listings. While it doesn't support real transactions, the live version demonstrates front-end functionality, routing, and state management, offering a seamless user experience. Hosted online for demonstration purposes.</p><div>React, Tailwindcss, Zustand</div></div></div></div><div><div><div>Anywears</div><div>E-commerce Project</div><div><div><div></div><div>https://faosy-adebimpe.github.io/anywears</div></div><div><p>Developed an e-commerce website called Anywears to showcase my frontend development skills using React, Redux Toolkit, TailwindCSS, and the FakeStore API for dummy data. The website features a responsive and visually appealing interface, demonstrating product browsing, cart functionality, and dynamic data fetching. Although not fully functional, Anywears serves as a portfolio piece to highlight my ability to build modern, user-friendly web applications with strong UI/UX design principles and effective state management.</p><div>React, Redux Toolkit, TailwindCSS, FakeStore API, JavaScript, Responsive Web Design, State Management, API Integration, UI/UX Design, Git, GitHub</div></div></div></div><div><div><div>Todo App</div><div>The To-Do App is a sleek and user-friendly task management application designed to help users organize their daily tasks with ease. Built using React, React Router, and Tailwind CSS, this app combines modern design with essential functionality for efficient task management.</div><div>React, React Router, Tailwindcss</div></div></div></div></div></div>	<div><div>December 2024</div><div>September 2024</div><div>April 2024</div></div>
