The app features a responsive UI with placeholders for books, user accounts, and product listings. While it doesn't support real transactions, the live version demonstrates front-end functionality, routing, and state management, offering a seamless user experience. Hosted online for demonstration purposes.</div><div>React, Tailwindcss, Zustand</div></div></div><div><div><div><div>Anywears</div><div>September 2024</div></div><div><div>E-commerce Project</div><div><div>Developed an e-commerce website called Anywears to showcase my frontend development skills using React, Redux Toolkit, TailwindCSS, and the FakeStore API for dummy data. The website features a responsive and visually appealing interface, demonstrating product browsing, cart functionality, and dynamic data fetching. Although not fully functional, Anywears serves as a portfolio piece to highlight my ability to build modern, user-friendly web applications with strong UI/UX design principles and effective state management.</div><div>React, Redux Toolkit, TailwindCSS, FakeStore API, JavaScript, Responsive Web Design, State Management, API Integration, UI/UX Design, Git, GitHub</div></div></div><div><div><div><div>Todo App</div><div>April 2024</div></div><div><div><div><div></div></div><div>https://faosy-adebimpe.github.io/todo-app/</div></div><div><div>The To-Do App is a sleek and user-friendly task management application designed to help users organize their daily tasks with ease.
