Summary	<p>Full Stack Developer with a focus on modern web technologies and scalable architecture. Proficient in React.js (with hooks and Zustand/Redux), Node.js (Express), and UI/UX design. Demonstrated ability to build responsive applications, optimize workflows, and deliver clean, maintainable code. Passionate about contributing to impactful products and continuously expanding my technical skillset in web and AI workflows.</p>	
Experience	<div><div><div>Philmoore Stores</div><div>February 2025</div></div><div><div>Software Developer</div><div>Lagos Island, Balogun Market, Lagos State, Nigeria</div></div><div><div><div></div><div>https://philmoorestores.com/</div></div><div>Managed and optimized stock levels, ensuring inventory accuracy and reducing stockouts and overstocking issues by 15%.</div><div>Conducted regular inventory audits, improving overall stock accuracy by 10%.</div><div>Led the management and updates of the company website, increasing web traffic by 12% and driving a 8% boost in online sales.</div><div>Streamlined product listings and categorization, enhancing user experience and improving online sales conversion by 10%.</div></div></div>	
Projects	<div><div><div>B-Store</div><div>December 2024</div></div><div><div>An e-commerce book store web app</div><div><div><div></div><div>https://adebimpe-adetomiwa-22.github.io/bstore/</div></div><div>Built a live, interactive bookstore app using React, TailwindCSS, Zustand, and React Router. The app features a responsive UI with placeholders for books, user accounts, and product listings. While it doesn't support real transactions, the live version demonstrates front-end functionality, routing, and state management, offering a seamless user experience. Hosted online for demonstration purposes.</div><div>React, Tailwindcss, Zustand</div></div><div><div>Anywears</div><div>September 2024</div></div><div><div>E-commerce Project</div><div><div><div></div><div>https://adebimpe-adetomiwa-22.github.io/anywears</div></div><div>Developed an e-commerce website called Anywears to showcase my frontend development skills using React, Redux Toolkit, TailwindCSS, and the FakeStore API for dummy data. The website features a responsive and visually appealing interface, demonstrating product browsing, cart functionality, and dynamic data fetching. Although not fully functional, Anywears serves as a portfolio piece to highlight my ability to build modern, user-friendly web applications with strong UI/UX design principles and effective state management.</div><div>React, Redux Toolkit, TailwindCSS, FakeStore API, JavaScript, Responsive Web Design, State Management, API Integration, UI/UX Design, Git, GitHub</div></div><div><div>Todo App</div><div>April 2024</div></div><div><div><div><div></div><div>https://adebimpe-adetomiwa-22.github.io/todo-app/</div></div><div>The To-Do App is a sleek and user-friendly task management application designed to help users organize their daily tasks with ease. Built using React, React Router, and Tailwind CSS, this app combines modern design with essential functionality for efficient task management.</div><div>React, React Router, Tailwindcss</div></div></div></div></div></div>	
Skills	<div><div><div>Frontend Development</div><div>React.js, Redux Toolkit, Zustand, JavaScript, TypeScript, TailwindCSS, Sass, HTML5, CSS3, Responsive Design, Nextjs</div></div><div><div>Interactive and responsive web applications</div><div>React, Tailwindcss, Scss, Typescript, Nextjs</div></div><div><div>Single Page Applications</div><div>React Router</div></div><div><div>State Management</div><div>Redux toolkit, Zustand</div></div><div><div>Version Control System</div><div>Git, GitHub</div></div><div><div>Backend</div><div>Node.js (Express), RESTful APIs, Authentication</div></div><div><div>Databases</div><div>MongoDB, Supabase</div></div><div><div>Others</div><div>UI/UX Design, State Management, Component Reusability, API Integration</div></div></div>
